

What Can I Do

- **Contact us** with any questions or recommendations for resources related to agtech: amy@farmstoincubators.com.
- **Hosting a screening** of our documentary short “From Farms to Incubators,” which introduces women in agtech. View the trailer here <https://vimeo.com/274583785>.
- **Hold an event that involves a discussion.** We seek like-minded individuals and organizations who wish to co-host events, panels and discussions surrounding women in agtech.
- **Share our searchable directory** of women innovators and entrepreneurs in agtech. If interested email us and we are happy to share the embeddable link. If you know of a woman who should be on the list email us. Here is a link to the directory: <https://agfundernews.com/a-new-searchable-directory-focuses-on-women-innovators-in-agrifoodtech.html>
- **Join our mailing lists** to find out about upcoming events on this topic at: <https://hvfarmhub.org/newsletters/>
- **Read industry publications** to keep up with news and opportunities in agtech and agbio.
- **Be a member of From Farms to Incubators** or organizations such as WIA or WITI that provide networking opportunities and community for women in agtech.
- **Attend industry events** whether it be in agtech, agbio or food tech and to take it a step further consider speaking on a panel or joining the conferences planning committee.
- **Learn more about farming practices** used to produce your food (visit farms, talk to farmers, look at product labels etc).
